Our Pergolas.

Rain or shine, NOVA's award-winning pergola collection transforms any patio into a space worth gathering in. Sleek, considered, and built to handle whatever the British weather throws at it, our pergolas come in a range of sizes and colours, so the perfect fit for your garden is closer than you think.

Let's browse our range.

Compare Pergola Models.

NOVA's pergola range comes in three distinct models, each with their own features and materials to suit different spaces, styles, and needs. Use our comparison tool to explore the key differences, from louvre styles and frame materials to the integrated LED lighting on the Titan Pergola.

Whichever model you choose, UV and fade resistance comes as standard, alongside a Tiger Drylac powder coating that keeps the framework protected for the long run. Built to last, and specified to prove it.

Every NOVA pergola is also produced through a carbon-neutral process, with packaging made from GRP-certified recycled plastic and zero single-use plastics. Because quality shouldn't cost the planet.

	Luna	Titan	Titan Plus
Louvres Material	 Galvanised Steel	 Aluminium	 Aluminium
Framework Material	Galvanised Steel	 Aluminium	Aluminium
Max Width	From 2.4m to 6.0m	From 2.4m to 9.0m	From 3.0m to 6.0m

Titan Pergola.

Our best-selling pergola, and for good reason. The Titan combines premium powder coated aluminium framework with the largest accessory range of any of our pergola models, giving you complete freedom to customise your space, your way.

Perks of the Titan pergola

- **5yr limited warranty**
- TIGER Drylac powder coating
- Biggest accessory range
- Built-in drainage system
- Double skin aluminium louvres

The Titan Pergola's

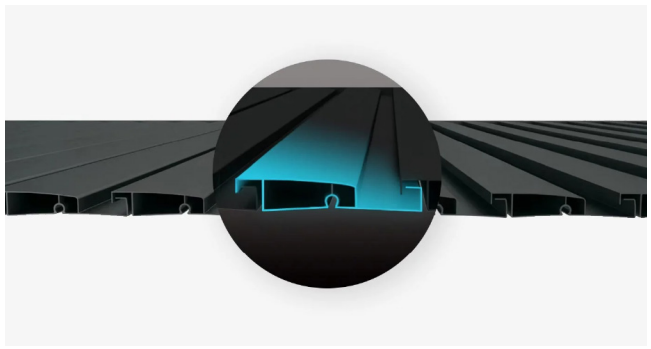
Built-In Drainage System.

When designing the Titan pergola, we focused on creating a strong, high-quality structure that offers genuine protection from the elements.

The Titan features an **award-winning** drainage system that prevents water from pooling on the roof, eliminating the need to open the louvres to drain rainwater. This ensures that any furniture stored under the pergola remains dry and protected no matter the weather.

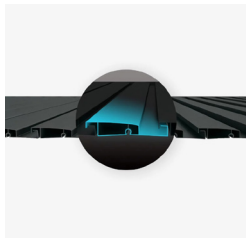
Here's a breakdown of the process:
Rainwater lands on the louvres and flows into U-shaped channels. The water is then directed down the pergola's legs and into the ground.

Our Titan pergola is perfect for anyone seeking enhanced protection from the typical British weather.



Titan Plus Pergola.

The Titan Plus LED Pergola takes the design and engineering of the Titan and raises the bar. With significant upgrades like motorised louvres and integrated LED lighting, this is our most accomplished pergola yet, and one of the finest available anywhere on the market.



Perks of the Titan Plus pergola

- **5yr limited warranty**
- Remote controllable louvres & LED lights
- TIGER Drylac powder coating
- Customisable with accessories
- Built-in drainage system
- Double skin aluminium louvres

Available size and colour options

3.0m x 3.0m

4.0m x 3.0m

6.0m x 3.0m

Grey

The Titan Plus Pergola's

App & Remote Control.

The remote controllability of the Titan Plus makes this model our **most customisable pergola.**

With remote and app-controlled roof louvres, adjusting protection from the elements and ensuring privacy from neighbouring gardens is quick and effortless, ideal for those days when the weather changes in an instant.

The built-in LED lights on our Titan Plus pergola model include the following features, enhancing any outdoor space with a touch of luxury:

- Multiple colour modes and combinations
- LED brightness controls
- Four static colour options

Luna Pergola.

Precision-engineered for outdoor living that doesn't stop when the seasons change. The galvanised steel frame and roof louvres have been UV-protected as standard, ensuring Luna remains resistant to fading, rust and the other kinds of elemental wear that come with our British weather.

Perks of the Luna pergola

- **2yr limited warranty**
- TIGER Drylac powder coating
- Customisable with accessories
- Built-in drainage system

Compatible Accessories

Texteline Privacy Screen - 2.4m, 3m & 4m

6.0m x 3.0m

Grey

Pergola Accessories.

Improve the sheltered experience with pergola accessories. Attach privacy screens, louvred side walls, pergola heaters and light kits to add style and substance to our pergolas.

Browse our pergola accessory options and create outdoor spaces tailored to individual needs and wants.

Aluminium Shuttered Louvre Sliding Door System.

Customise the look of the Titan pergola by adding our louvred sliding door system.

Choose to have the pergola sides open and welcome the sunshine, or closed for extra privacy, shelter, and protection from wind, rain and snow.

Plus, with the added ability of controlling light levels or wind exposure by tilting the louvres to open or close.

Available size and colour options

3.0m 3.6m 4.0m

Grey Pebble

Textile Side Screen.

The Textile Privacy Screen makes for the perfect addition to our Titan pergola range. Giving any garden area that extra bit of privacy, offer shade, and enhance protection against the elements.

Available size and colour options

2.4m

2.6m

3.0m

3.6m

4.0m

NEW Glass French Sliding Door System

Our new glass sliding door system is the ultimate upgrade to NOVA pergolas.

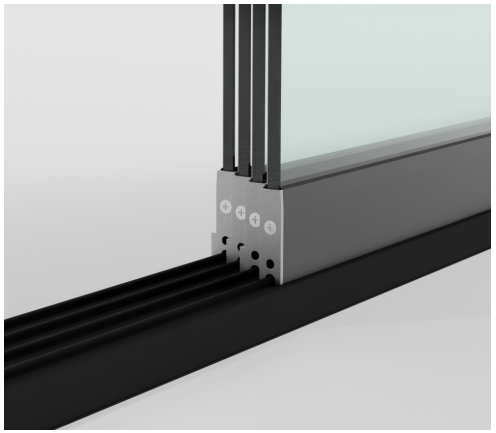
Featuring toughend glass for weather protection, a slim aluminium frame for a sleek finish, and a smooth sliding mechanism for easy open and close.

Creating a stylish extension of your home has never been easier.

Available size and colour options

3.0m 3.6m 4.0m

Grey Pebble



Aluminium Shuttered Louvre Side Panel.

Our shuttered louvre side panels allow you to switch between letting light in, or having a sheltered space.

Tilt the louvres to open, or close.

Plus, the wall is divided into two sections, so you can close the bottom half while keeping the top open for a perfect balance of light and privacy.

Available size and colour options

1.0m 1.2m 1.3m

Available as a single panel or in packs of two or three.

Grey Pebble

Aluminium Vertical Louvre Side Panel.

The fixed louvred side wall features vertical panels, for a fresh new look to the Titan pergola. These louvred side walls can be attached to the Titan pergola side and the ground using the fixings provided to create a wall.

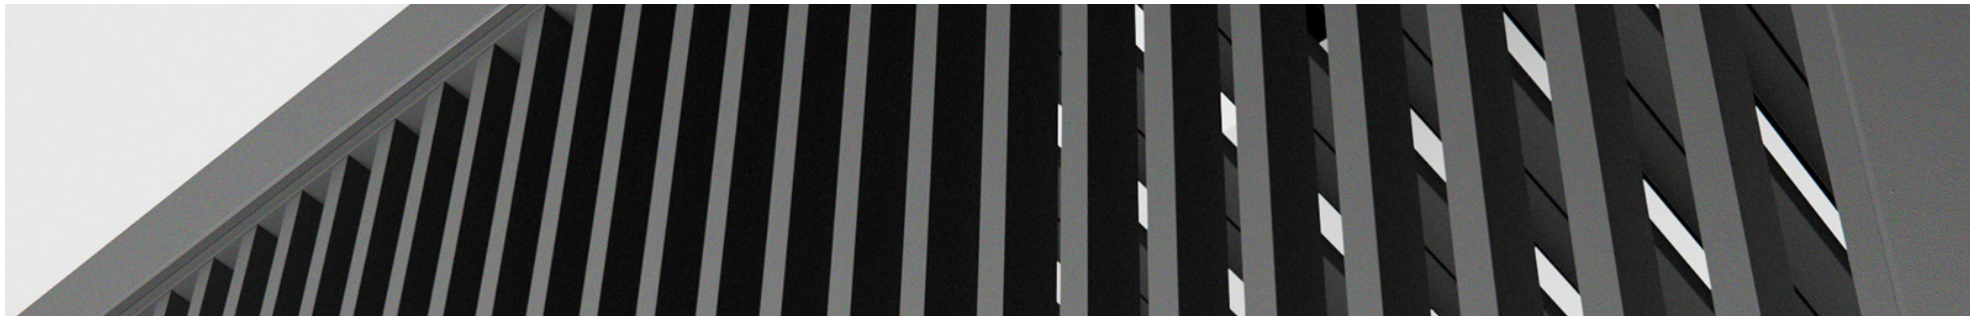
The perfect addition to your pergola, with a sleek, contemporary finish.

Available size and colour options

1.0m 1.2m 1.3m

Available as a single panel or in packs of two or three.

Grey



Aluminium Louvre Static Side Panel.

The static louvre side panel helps create a more private and sheltered area, providing shade while reducing exposure to wind. It's ideal for forming a comfortable space to relax, especially during warmer days.

Perfect for use alongside hot tubs, it adds an extra level of privacy from neighbouring gardens. The fixed louvres allow natural light to filter through while limiting visibility into the pergola.

Available size and colour options

1.0m 1.2m 1.3m

Available as a single panel or in packs of two or three.

Grey Pebble

Aluminium Static Side Wall Combinations.

Made to fit the Titan pergola range, these side wall combinations bring together cavity wall panels and fixed louvred side walls to create stuning walk ways or a premium complete wall for added privacy.

Cavity wall panels provide the perfect structure for mounting TVs, speakers, or lights allowing you to design the ultimate outdoor room.

Available size and colour options

3.0m

4.0m

Single Cavity Wall Panel

Available in various combinations.

Grey | Pebble | Woodlook

Aluminium Solid Insulated Side Panel.

Our solid insulated side panels are designed to add privacy and extra protection from our British weather.

Sturdy, durable and weather resistant, these panels are crafted from an aluminium framework with a honeycomb centre that provides a thermal insulation layer.

Great for adding a shaded spot to your garden for those hotter summer days.

Available size and colour options

1.0m 1.2m 1.3m

Available as a single panel or in packs of two or three.

Grey Pebble

Pergola LED Light Kit.

Elevate your NOVA pergola with our new RGBIC Smart Light Kit.

Choose from a selection of solid colours, including white, or add a vibrant flair to your garden with a colour-changing light show.

Use the smart remote to adjust the brightness and colour, or connect to the Tuya Smart app to set the mood right from your phone.

Specs of the Zesti Heater

- Powered by the **Tuya Smart App**
- Easy to use remote control
- Multiple colour combinations

Powered by tuya Intelligence Inside
